

Impact of Pupil Premium EYFS funding on 2018/19

Rationale:

- To close gaps in attainment by accelerating the progress of pupils in receipt of pupil premium funding. Our strategy is to invest in early intervention whenever possible.
- To develop and expand provision to meet the identified needs of individual children through targeted additional support and intervention.

Progress of the children receiving Pupil Premium funding in the academic year 2018/19

CL	PD	PSED	L	M	UW	EAD
4.5	4.6	4.8	3.3	4.8	4.8	4.2

Children are expected to make 1 point progress each term in all areas of development.

These children in receipt of PP have % wise exceeded the expected progress of 3 points in the year across all areas of learning. This shows the impact of the additional support.
